Speciality Courses

Team Coaching:

Our staff includes some of the leading RW competition coaches, top notch video staff, and pro packers to help you to get the most from your training. Skydive DeLand is the relative work training capital of the world "where skydivers become champions". Our year-round training center includes team hangars and video rooms (NTSC & PAL), creepers, large covered creeping areas, and aircraft mock-ups.

Canopy Control:

The Canopy School, Flight-1 School, was created with one goal in mind: to provide advanced canopy flight training to skydivers of all experience levels. No matter how many jumps you have, or what type of canopy you fly, we can help you improve your canopy flying skills.

Skydive University:

SDU offers professional and intensive programs to teach the fundamentals of relative work in a safe, relaxed and fun format. Utilizing the very best training available will drastically shorten the time and expense required to emerge as a safe, skilled skydiver and will greatly increase the fun and satisfaction from achieving successful skydives.

Freefly:

The Freedom of Flight School Freefly School wants to change the way you look at human flight. Our goal is to help people attain total freedom in the sky through one on one coaching, team coaching, and group organizing of all skill levels.
